About this Manual

This manual is intended for operating and supervisory personnel and provides information on installing and operating the product.
This publication has been written with great care. However, the manufacturer cannot be held responsible, either for any errors occurring in this publication or for their consequences.
The sale of products, services of goods governed under this publication are covered by MYLAPS 's standard Terms and Conditions of Sales and this product manual is provided solely for informational purposes.

Speedhive App Feed is a program that distributes live event results from Trackside to the Speedhive App. This program is for Trackside users only.

MYLAPS Trackside users

COST
There is no cost to use this service
There is no cost for racers to download the Speedhive App

REQUIREMENTS
Computer using Trackside with transponder scoring
Active internet connection
MYLAPS Speedhive App Feed program

PROCESS
1. Create an Organization Account on Mylaps.com (this is the same account used for posting results to Speedhive.com). To create an account, go to <portal.mylaps.com> and start a new account or login with your credentials.

2. Install Speedhive App Feed program onto a PC that is running Trackside and connected to the main Trackside database and has internet access.
   http://mxtransponder.com/trackside/SpeedhiveFeedApp.msi

3. In Trackside, click menu: WEB, START SPEEDHIVE FEED APP and provide your Organization User Id and Password.

4. The live timing of your event can be found in the Speedhive App by clicking on LIVE TIMING heading. Direct your racers to download the app from the App Store or Google Play

5. If you want to broadcast Live Timing on a website, please check with your Mylaps contact for pricing information. There is no fee to send the live timing data to the Speedhive App.
